Casting Future Solutions

Interim Report 1 January - 30 June 2008

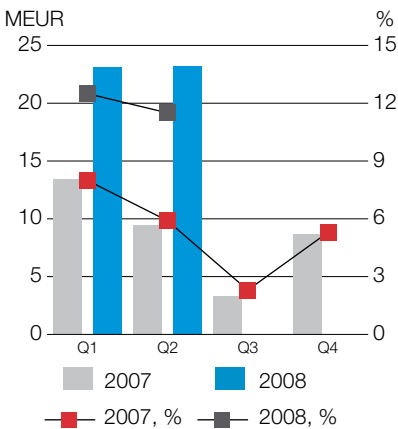

- Consolidated net sales in the six month review period totalled MEUR 386.0 (MEUR 328.6).
- Operating profit excluding one-time items was MEUR 46.2 (MEUR 22.9).
- Result after financial items, excluding one-time items, was MEUR 33.5 (MEUR 14.0).
- Basic earnings per share, excluding one-time items, were EUR 2.20 (EUR 0.94).
- In the second quarter consolidated net sales totalled MEUR 201.0 (MEUR 160.7), operating profit excluding one-time items was MEUR 23.1 (MEUR 9.5) and the result after financial items, excluding one-time items, was MEUR 18.6 (MEUR 5.1).

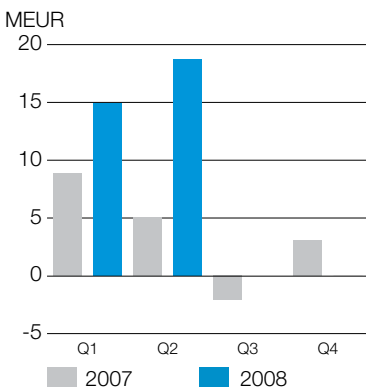

Group quarterly net sales

Operating profit excluding one-time items

Result after financial items excluding one-time items

Net sales and order book

The Group's net sales in January - June were EUR 386.0 (328.6) million. Comparable growth in net sales was 19.6%. The order book at the end of June stood at EUR 138.0 (106.9) million.

Sales of the Foundries division increased 27.3% from the previous year to EUR 159.2 (125.1) million.

Sales of the Machine shops division rose 14.5% to EUR 104.8 (91.5) million.

The Machine shops and Foundries divisions had a combined order book at the end of the review period of EUR 74.0 (58.1) million. Showing the order books for the divisions separately is not justified due to the nature of Componenta's supply chain.

Net sales of the Turkey division (formerly Döktas division) increased 19.7% to EUR 141.7 (118.4) million. The Turkey division had an order book at the end of the review period of EUR 48.1 (35.7) million.

Componenta's net sales by customer sector were as follows: off-road 35% (36%), heavy truck industry 30% (27%), automotive 14% (16%), diesel and wind 6% (6%), machine building 14% (14%) and others 1% (1%).

Result

The interim report has been prepared in accordance with international financial reporting standards (IFRS). Componenta has prepared the report applying the same accounting principles as in its 2007 Financial Statements. The figures in the interim report are unaudited.

The Group's operating profit in the review period excluding one-time items was EUR 46.2 (22.9) million. The operating profits of all the divisions improved significantly from the previous year. Other operating income includes exchange rate differences on sales and purchases.

The Group's net financial costs in the review period totalled EUR -12.7 (-8.8) million. The EUR 3.9 million increase in net financial costs from the previous year

was mainly due to exchange rate differences on loans.

The consolidated result after financial items, excluding one-time items, was EUR 33.5 (14.0) million. The Group recognized a one-time income of EUR 0.045 million for the period from the sale of shares in Ekokem Oy.

Income taxes, calculated from the net result for the period, totalled EUR -8.5 (-1.5) million.

The net result for the period, excluding one-time items, was EUR 25.1 (10.7) million and the corresponding figure including one-time items EUR 25.1 (25.4) million.

The basic earnings per share, excluding one-time items, were EUR 2.20 (0.94) and the corresponding figure including one-time items was EUR 2.20 (2.36).

The return on investment, excluding one-time items, was 25.7% (12.4%) and return on equity, excluding one-time items, 51.7% (22.2%).

Financing

On 30 June 2008 Componenta Corporation had outstanding capital notes and convertible notes with a combined value of EUR 52.6 million, as defined in IFRS. In March the Group repaid EUR 3.2 million, or 10%, of the principal of the preferred capital notes issued in 2002, in accordance with the terms of the notes. During the review period, 6 of Componenta's convertible capital notes were converted into shares. As a result, the number of Componenta shares increased by 1,200 and the shareholders' equity rose by EUR 10,800. At the end of the review period the outstanding unconverted capital notes and convertible notes entitled holders to subscribe to 3,167,000 shares.

At the end of the review period, Componenta had EUR 98.2 million in unused, long-term credit facilities. In addition, the Group has a EUR 150.0 million commercial paper programme. The Group's interest-bearing net debt, excluding the outstanding

Net sales 386.0 MEUR (328.6 MEUR)
Operating profit 46.2 MEUR (22.9 MEUR)
Result after financial items 33.5 MEUR (14.0 MEUR)

capital notes of EUR 52.6 million, stood at EUR 186.0 (213.9) million. The company's net debt as a proportion of shareholders' equity, including the capital notes in shareholders' equity, was 116.7% (139.2%).

Componenta is making more efficient use of capital with a programme to sell its sales receivables. Under this arrangement, some of the sales receivables are sold without any right of recourse. By the end of the period the company had sold sales receivables totalling EUR 59.7 (33.5) million.

Componenta's net cash flow from operations during the review period was EUR 26.0 (6.1) million, and of this the change in net working capital was EUR -16.9 (-16.0) million. The cash flow from investments was EUR -18.1 (-27.4) million.

At the end of the review period the Group's equity ratio was 21.3% (19.7%). The Group's shareholders' equity on 30 June 2008, including the capital notes in shareholders' equity, as a proportion of the balance sheet total was 31.8% (30.7%).

Performance of business divisions

Componenta amended its reporting structure on 1 January 2008, when Componenta Pistons was transferred from Other business to the Machine shop division and the Orhangazi machine shop operations were transferred from the Turkey division, also to the Machine shop division. All figures for comparison for the divisions for 2007 have been adjusted to bring them in line with the new reporting structure.

Foundries

The Foundries division had net sales in the January - June period of EUR 159.2 (125.1) million and an operating profit of EUR 21.3 million, 13.4% of net sales (EUR 11.3 million, 9.0%). Increased volumes and greater efficiency in its operations made a positive contribution to the division's operating profit. In consequence of the sharp increases in raw material prices, in the review period Componenta introduced a new price com-

ensation system, which will mean that the impact of changes in raw material prices is updated timely on a monthly basis instead of the previous quarterly adjustments.

In the second quarter the division had sales of EUR 86.1 (62.0) million and an operating profit of EUR 12.4 (6.1) million.

Machine shops

The Machine shops division had net sales in the first six months of 2008 of EUR 104.8 (91.5) million and an operating profit of EUR 4.7 million, or 4.5% of net sales (EUR 3.5 million, 3.8%).

The division had net sales in the second quarter of EUR 54.3 (45.5) million and an operating profit of EUR 2.7 (1.7) million.

Turkey

The Turkey division had net sales in the review period of EUR 141.7 (118.4) million and an operating profit of EUR 20.0 million, 14.1% of net sales (EUR 8.0 million, 6.8%). The main factors that improved the division's financial performance in the period were increasing volumes, higher efficiency in its business operations and the weakening of the Turkish lira against the euro. During the review period the same price compensation system as in the Foundries division was taken into use also in the Turkey division.

The Turkey division had net sales in the second quarter of EUR 71.1 (58.6) million and an operating profit of EUR 7.0 (2.8) million.

In the review period Orhangazi had net sales of EUR 103.9 (82.4) million and operating profit of EUR 14.4 (6.0) million. Manisa's net sales in the review period was EUR 40.6 (39.3) million and operating profit EUR 6.1 (2.2) million.

Other business

Other business comprises the Componenta Wirsbo forges in Sweden, the sales and logistics company in the UK, real estate companies and the Group's administrative functions. Other business had an operating

Sales by market area

Sales by customer industry

profit excluding one-time items of EUR 2.0 (1.3) million in the January - June period.

Other business had a second quarter operating profit excluding one-time items of EUR 1.2 (0.0) million.

Shares and share capital

The shares of Componenta Corporation are quoted on the OMX Nordic Exchange in Helsinki. At the end of the review period the company had a total of 10,943,698 shares. At the end of the review period the company's share capital stood at EUR 21.9 (21.7) million. On 30 June 2008 the quoted price of Componenta Corporation shares stood at EUR 8.50 (13.36). The average price during the review period was EUR 8.20, the lowest quoted price was EUR 6.12 and the highest EUR 10.42. At the end of the review period the share capital had a market capitalization of EUR 93.0 (145.1) million and the volume of shares traded during the period was equivalent to 16.2% (27.5%) of the share stock.

Share-based incentive system

The share-based incentive scheme is based on the decision taken on 3 April 2007 by the Board of Directors of Componenta Corporation. The scheme comprises three one-year earnings periods, which are the calendar years 2007, 2008 and 2009. The bonuses will be paid in 2008, 2009 and 2010 partly in company shares and partly in cash. The part to be paid in cash will cover the tax and similar charges arising from the bonus. There is a ban on selling the shares for two years after the end of the earnings period.

Any yield from the incentive scheme is based on the Group's profit after financial items and the Group's return on investment. At the end of the review period the target group contained 39 people. If the targets set for the scheme are met in full, the scheme will pay a bonus of a maximum of 180,000 Componenta Corporation shares. For 2008 a maximum of 70,000 Componenta Corporation shares will be allocated in the scheme. The President and CEO

will account for a maximum of 18,000 out of the total figure and other key personnel for altogether a maximum of 52,000 shares. The scheme had an impact before taxes on the result at the end of the review period of EUR 0.3 million.

Purchasing and disposing of company shares

Under the authorization of the AGM held on 25 February 2008, the Board of Directors may decide to purchase a maximum of 1,000,000 of the Company's own shares using the Company's unrestricted shareholders' equity.

The shares shall be purchased in public trading, for which reason they will be purchased other than in proportion to the holdings of shareholders. The purchase price shall be based on the market price for Componenta shares in public trading. The shares shall be purchased on the OMX Nordic Exchange in Helsinki and in accordance with its rules and regulations.

The Board of Directors may not implement the authorization to purchase the Company's own shares if after the purchase the Company or its subsidiary would possess or hold in pledge altogether more than 10 per cent of all the Company's shares. The authorization does not exclude the right of the Board of Directors to decide on a direct purchase of shares.

The Board holds an authorization granted by the AGM on 26 February 2007 to decide to issue shares and grant option rights and other special rights with an entitlement to shares under the following terms and conditions:

1. Under the authorization the Board may decide to issue shares and grant option rights and other special rights as defined in chapter 10, section 1 of the Finnish Companies Act, such that a maximum of 2,000,000 shares are issued under the authorization. The authorization does not exclude the right of the Board of Directors to decide on a direct issue of shares.

2. The authorization is valid for a period of five years from the date of the decision of the AGM.

The Board of Directors has to date not exercised either of these authorizations.

Investments

Componenta's investments in production facilities during the review period totalled EUR 19.6 (10.4) million, and finance lease investments accounted for EUR 1.3 (0.1) million of these. The net cash flow from investments was EUR -18.1 (-27.4) million. The figure includes EUR 0.4 million used during the review period to purchase shares of Componenta Dökümcülük Ticaret Ve Sanayi A.S. on the Istanbul Stock Exchange. Componenta now owns 93.1% of the shares of Componenta Dökümcülük Ticaret Ve Sanayi A.S.

Board of Directors and Management

Componenta's Annual General Meeting of Shareholders on 25 February 2008 elected the following to the Board of Directors: Heikki Bergholm, Heikki Lehtonen, Juhani Mäkinen, Marjo Raitavuo and Matti Tikkakoski. The Board held its organization

meeting after the AGM and elected Heikki Bergholm as its Chairman and Juhani Mäkinen as its Vice Chairman.

At the end of the review period the corporate executive team of Componenta Corporation comprised the following: President and CEO Heikki Lehtonen; Yaylalı Günay, Senior Vice President, Investments; Hakan Göral, Senior Vice President, Turkey division, CFO Mika Hassinen; Olli Karhunen, Senior Vice President, Foundries division; Timo Laitinen, Senior Vice President, Sales and Product development; Jari Leino, Sales Director, Heavy Trucks; Anu Mankki, Senior Vice President, Human Resources; Tapio Rantala, Director, Business Development; Michael Sjöberg, Senior Vice President, Machine shops division, and Communications Director Pirjo Aarnio-vuori.

Personnel

The number of Group personnel at the end of the review period was 5,330 (5,037), including 1,011 (823) contract employees. At the end of June 2008, 48% (50%) of the Group's personnel were in Turkey, 23% (23%) in Finland, 19% (16%) in the Netherlands and 10% (10%) in Sweden.

Risks

Fluctuations in the prices of Componenta Group's main raw material, recycled metal, affect the sales margins on the Group's products. Increases in raw material prices are passed on to the products supplied to customers after a certain delay, so price increases in recycled metal reduce the sales margin temporarily. When prices of recycled metal go down, the Group's margins improve for a while.

The electricity consumption of the Group's foundries and machine shops creates a spot price risk for the purchased electricity, so the Group purchases electricity price forwards to hedge against the impact of electricity prices on the financial performance. The target hedging level for the forecast electricity consumption by the Group's production plants is 90% for the next 12 months, 60% for the following year and 40% for the third year. Trading in electricity price forwards has been outsourced. The Group aims to pass on the increase in the price of electricity to customers with a separate electricity surcharge.

Appropriate insurance has been taken against risks associated with assets and interruption of operations and to minimize indemnity.

The financial risks relating to Componenta Group's business operations are managed in accordance with the treasury policy approved by the Board of Directors. The objective is to protect the Group against

unfavourable changes in the financial markets and to secure the Group's financial performance and financial position. Management of financial risks takes place in the corporate treasury function.

Translation of Componenta Turkey's equity into euros raises a significant translation risk in Turkish lira. Changes in the value of US dollar, GB pound and euro in relation to Turkish lira have an impact on Componenta's operating profit and result after financial items on short-term.

During the review period, Componenta's Board of Directors approved the revised Group treasury policy. According to the policy, transaction exposure is divided into separate currency denominated balance sheet items according to whether the foreign exchange rate differences are recognized in operating profit or in financial income and expenses. The hedging level of the transaction exposures must lie between 95 and 105 percent. Changes in the value of the Group's equity due to the translation of subsidiaries' foreign currency denominated equity into euros are hedged at 0-100%. Componenta will adjust its operations accordingly by the end of September 2008.

The Group has no significant concentration of risk for receivables. The Group recognized no major credit losses in the review period.

The company's financial agreements contain normal clauses according to which the company's loans may fall due for pay-

ment before the maturity date if control of the company changes in consequence of a public purchase offer. The company is not party to any other significant contracts that will come into force, that can be amended or that can cease to be valid if control of the company changes in consequence of a public purchase offer.

Prospects

Componenta's prospects for the remainder of 2008 are based on general external financial indicators, order forecasts given by customers, and on Componenta's order intake and order book.

The demand outlook in most of the Group's customer sectors is good at the beginning of the third quarter of 2008. The slowdown in construction in the USA and Europe has reduced demand in the off-road sector, but on the other hand the high prices of raw materials and food are keeping demand high for mining machinery and tractors. The prospects for the heavy truck industry are encouraging for the remainder of the year. The high price of oil and rising inflation, coupled with increasing uncertainty, are reducing demand in the automotive industry in Europe. Weaker demand has so far not affected demand for Componenta's products. Demand prospects in the diesel and wind sectors and the machine building industry remain good. Componenta's order book stood 29% higher at the end of the second quarter of 2008 than at the same time in the previous year, at EUR 138.0 (106.9) million.

Componenta Group's 2008 net sales and the result after financial items, excluding one-time items, are expected to increase considerably on the corresponding figures for 2007.
